2. Overview of Project

FW PUBLIC WORKS
City Engineering
In Your Neighborhood

- Federally Funded
- Subject to National Environmental Policy Act (NEPA)
  - Evaluation of environmental impacts of the project on the natural and social environment
    - Waterways, wetlands, endangered species, etc.
    - Historic resources
    - Social and economic factors
  - Public engagement

FORT WAYNE

2. Overview of Project

FW PUBLIC WORKS
City Engineering
In Your Neighborhood

- Existing Conditions
  - Primarily a two-lane roadway with intermittent turn lanes
  - Limited pedestrian facilities

FORT WAYNE
Public Works
In Your Neighborhood

2. Overview of Project

FW PUBLIC WORKS
City Engineering
In Your Neighborhood

- Project Need
  - The need for the North Clinton Street Improvements project is evident based on anticipated increase in traffic volumes and resulting congestion.
    - It is anticipated that the Level of Service (LOS) of North Clinton Street would fall below the acceptable LOS of D for urban areas by the design year of 2048.
    - A traffic study is currently being completed and subsequent correspondence will reflect the findings of the study.
  - An additional need for the project is lack of connectivity of pedestrian facilities along North Clinton Street.
    - Currently there are existing pedestrian facilities to the south of Auburn Road and north of Mayhew Road along with numerous sidewalks which dead-end at, or are discontinuous along, this portion of North Clinton Street.

2. Overview of Project

FW PUBLIC WORKS
City Engineering
In Your Neighborhood

- Project Purpose
  - To provide a roadway that can effectively accommodate future traffic volumes and operate at an acceptable LOS of C or higher during the design year of 2048, and to increase connectivity of pedestrian facilities.
  - Traffic studies are currently being completed to provide additional supporting data for this need which will be presented in future correspondence.

Preliminary Preferred Alternative:

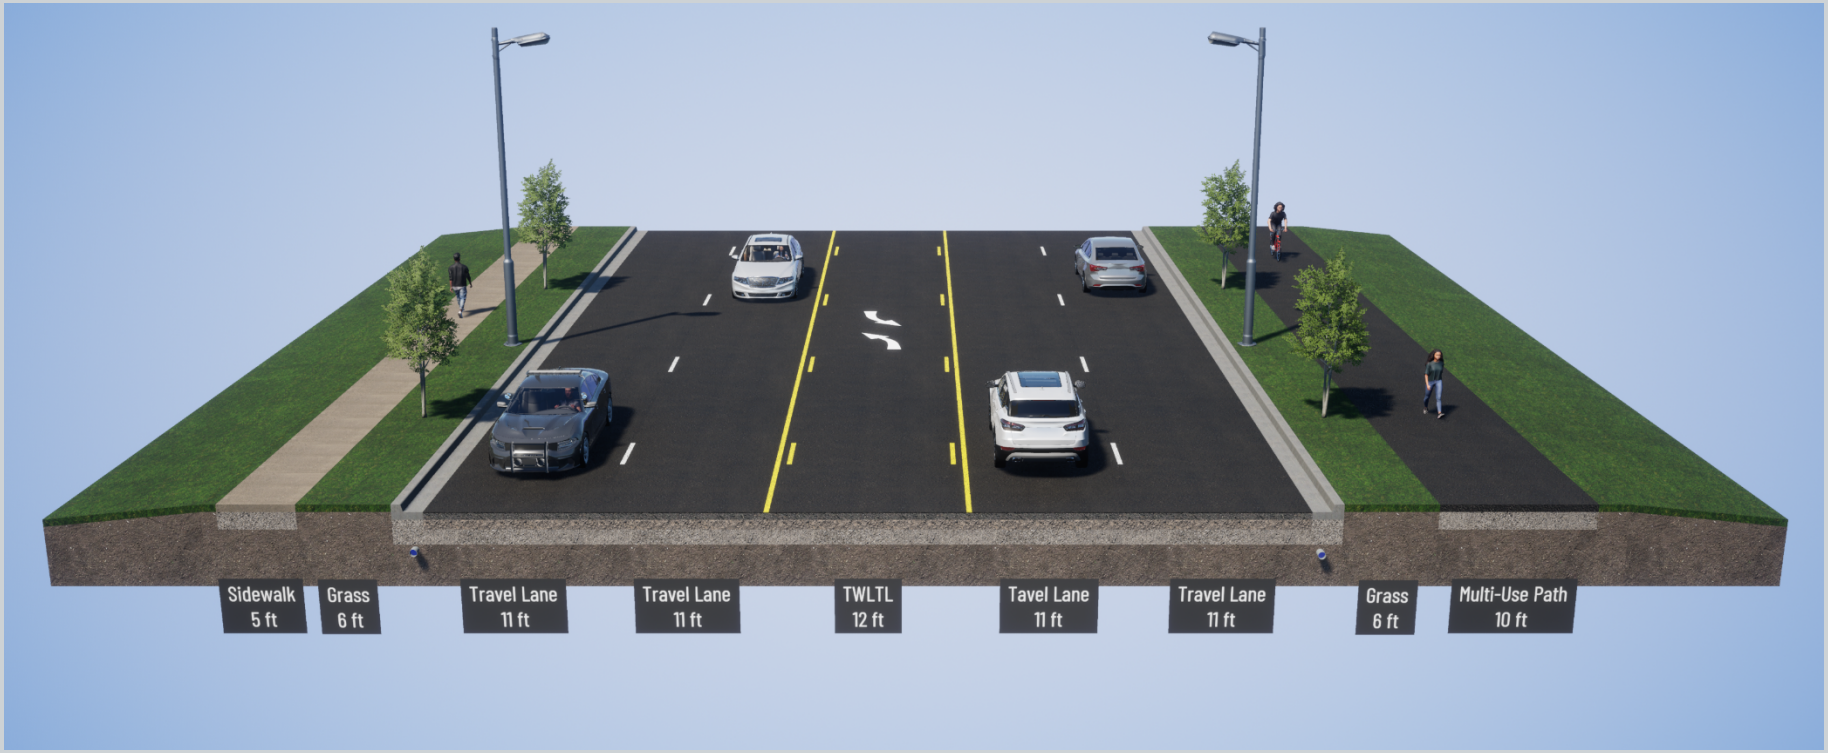

- Reconstruction and widening of Clinton Street
- New Additions
  - Added Travel Lanes
  - 5’ Sidewalk
  - 10’ Multi-Use Path
  - Curb and gutter
  - Enclosed storm sewer
  - Decorative lighting
  - Signal Improvement

In Your Neighborhood

Project Milestone	Anticipated Completion
Stage 1 (30% Complete Plans)	Winter 2024
Second Public Information Meeting*	Spring/Summer 2025
Stage 2 (60% Complete Plans)	Spring 2026
Public Hearing*	Summer 2026
Environmental Document Approval	Fall 2026
Begin Right-of-Way Acquisition	Fall 2026
Stage 3 (90% Complete Plans)	Spring 2028
Final Plans (100% Complete)	Summer 2028
Project Bid & Begin Construction Activities (Phase 1)	Fall 2028

3. Tentative Project Timeline

FW PUBLIC WORKS
City Engineering
In Your Neighborhood

Next Steps:

- Early in the design process
- Solicit more information from the public to inform the design
- Another public meeting and a public hearing will be held in the future to discuss the project
