2. Purpose & Need

FW PUBLIC WORKS
City Engineering
In Your Neighborhood

- Purpose

  Enhance traffic mobility, improve vehicular and pedestrian safety, and address increasing traffic.

- Need

  The Broadway Street and Taylor Street intersection has several safety concerns, including limited sight distance, speeding, inadequate ADA pedestrian facilities, and deteriorating pavement. Frequent pedestrian crossings outside the designated crosswalk between the restaurant area and the nearby parking lot increase the potential for conflicts with turning vehicles, creating a significant safety concern.

3. Overview of Project

FW PUBLIC WORKS
City Engineering
In Your Neighborhood

Project Scope:

- Intersection Improvements
  - Single lane roundabout at Broadway and Taylor Street
  - New Raised Intersection at Wall Street and Broadway
- New and Reconstructed Sidewalks and Curb Ramps (Where Needed Throughout Project Limits)
- New 8’ Multi-Use Path
  - Along the North Side of Taylor from Nelson St. to Broadway
  - Along the East Side of Broadway from Taylor to Wall St.
- Improved Drainage Facilities at the Roundabout
  - New enclosed storm sewer
- Green Infrastructure at Roundabout
- New Street Lights
